WORK EXPERIENCE
___

Front-end Software Engineer   **November 2023 – present**
Manulife Data Service Incorporated
Technohub, Commonwealth, Quezon City

• Designs and develops responsive email templates for the Weekly Express and Advisor Weekly Connection, adhering to semantic HTML standards and incorporating internal CSS, leveraging the Salesforce platform for deployment and management.

• Collaborates with content authors and stakeholders to modify and enhance content within Adobe Experience Manager (AEM), performing minor coding tasks to ensure optimal presentation and functionality.

• Develops, maintains, and updates content for the Content Management Application (CMA), employing HTML, CSS, and JavaScript to ensure consistency, accessibility, and user engagement.

• Leads the development of significant projects for microsites dedicated to ARA and STAFF websites for Manulife US Retirement, focusing on creating intuitive and engaging user experiences that meet business objectives and branding guidelines.

• Utilizes Sitecore to modify and maintain website content, ensuring seamless integration and functionality using HTML, CSS, and JavaScript.

• Coordinates with cross-functional teams, including designers, back-end developers, and project managers, to implement new features, troubleshoot issues, and ensure high-quality deliverables.

Engineering College Instructor (Part-time)   **March 2024 – present**
National College of Science and Technology
Amafel Building, Aguinaldo Hi-way, City of Dasmarinas, Cavite

• Instructs students on network technologies and high-level programming languages, including JavaScript, Java, C++, and C#, ensuring comprehensive understanding and practical application.

• Serves as thesis adviser for Bachelor of Science in Computer Engineering students, particularly guiding them through their capstone projects, providing mentorship, and ensuring academic rigor.

• Adviser and founder of the newly formed organization, Engineering Society and Alliance, fostering an environment that enhances students' skills, professional connections, and overall abilities.

• Develops and delivers engaging and informative lectures, lab sessions, and course materials that align with curriculum standards and industry practices.

• Evaluates student performance through assessments, assignments, and projects, providing constructive feedback to promote continuous improvement and academic success.

• Engages with industry professionals and organizations to create opportunities for student career.

• Maintains an up-to-date understanding of advancements in engineering and technology to ensure course content remains relevant and cutting-edge.

IT Support   **June 2021 – February 2023**
Your Virtual World
WANJ Bldg, Brgy. San Jose, City of Dasmarinas, Cavite

● Assisting Lead Generators/Agents in identifying and resolving technical issues with hardware, software, and network systems.

● Manages user accounts and access controls, including setting up new user profiles, resetting passwords, and ensuring compliance with security policies.

● Builds and modifies website content using the MERN Stack (MongoDB, Express.js, React, and Node.js), ensuring responsive design and seamless user experience.
