Experience

Manulife Data Services Incorporate   UP Ayala Land, Technohub, Commonwealth, Quezon City
Front-end Software Engineer   Nov 6, 2023 – June 1, 2025
- Designs and develops responsive email templates for the Weekly Express and Advisor Weekly Connection, adhering to semantic HTML standards and incorporating internal CSS, leveraging the Salesforce platform for deployment and management.
- Collaborates with content authors and stakeholders to modify and enhance content within Adobe Experience Manager (AEM), performing minor coding tasks to ensure optimal presentation and functionality.
- Develops, maintains, and updates content for the Content Management Application (CMA), employing HTML, CSS, and JavaScript to ensure consistency, accessibility, and user engagement.
- Leads the development of significant projects for microsites dedicated to ARA and STAFF websites for Manulife US Retirement, focusing on creating intuitive and engaging user experiences that meet business objectives and branding guidelines.
- Utilizes Sitecore to modify and maintain website content, ensuring seamless integration and functionality using HTML, CSS, Java, and JavaScript.
- Coordinates with cross-functional teams, including designers, back-end developers, and project managers, to implement new features, troubleshoot issues, and ensure high-quality deliverables.

National College of Science and Technology   City of Dasmariñas, Cavite
Part-time Engineering Instructor   March 2024 – present
- Instructs students on network technologies and high-level programming languages, including JavaScript, Java, C++, and C#, ensuring comprehensive understanding and practical application.
- Serves as thesis adviser for Bachelor of Science in Computer Engineering students, particularly guiding them through their capstone projects, providing mentorship, and ensuring academic rigor.
- Maintains an up-to-date understanding of advancements in engineering and technology to ensure course content remains relevant and cutting-edge
- Adviser and founder of the newly formed organization, Engineering Society and Alliance, fostering an environment that enhances students' skills, professional connections, and overall abilities.
- Evaluates student performance through assessments, assignments, and projects, providing constructive feedback to promote continuous improvement and academic success.

Your Virtual World   City of Dasmariñas, Cavite
IT Support and Analyst   June 2021 – February 2023

- Assisting Lead Generators/Agents in identifying and resolving technical issues with hardware, software, and network systems.
- Manages user accounts and access controls, including setting up new user profiles, resetting passwords, and ensuring compliance with security policies.
- Builds and modifies website content using the MERN Stack (MongoDB, Express.js, React, and Node.js), ensuring responsive design and seamless user experience.

Technical Skills

- Front-end Languages: HTML, CSS, Bootstrap, JavaScript, React JS
- Back-end Languages: Node JS, Express JS, C#, C++, Java
- Database: NoSQL(MongoDB), MySQL
- Other Technologies: Salesforce, AEM, Sitecore, Postman, CMA, Canva, Microsite, Git, Git Bash, Gitlab, Vercel, Github
- Office Applications: MS Word, Ms Excel, Adobe, Google Workspace, WPS

Expertise

A skilled Software Developer/Engineer with expertise in the MERN stack, offering flexibility in working with various technologies and programming languages. Has the ability to quickly learn new concepts and programming languages as needed, ensuring seamless integration with company requirements and delivering innovative solutions.
